

# Summer Newsletter 2011

*Don't be Stinky over Christmas!*

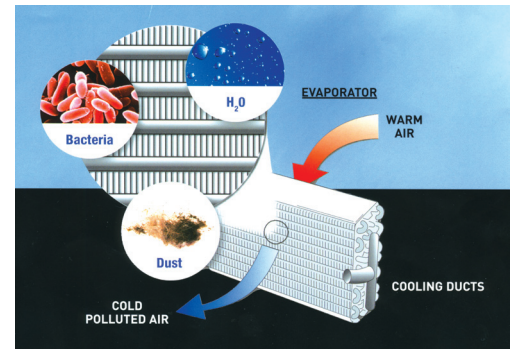

Mould & bacteria growth in your vehicle's air conditioning system can cause unpleasant cabin smells, eye & throat irritation and allergic reactions. Saxton Autos can protect your air conditioning systems for long periods of time against contamination, and the harmful side effects to you or your passengers.

We can offer you an **ANNUAL Air-Conditioning Cleaning Service**, curing and preventing 'Sick Car Syndrome' and protecting your health. This A/C service cleans and disinfects the entire system and is the only professional and effective way to prevent bacteria, mould and fungal growth in your vehicle's A/C system, making healthier air-conditioning for you and your family.

This service is only **\$130 incl GST**, so give Phil a call today and book your car in or ask for it to be done when you're next visiting.

**If you can't find a park when you arrive at Saxton's, just drive on in and let us park your vehicle for you!**

*And the winners are...*

Well done to Jacky Liu, Newton King, Colin Dodd and Jay O'Leary who won themselves each a \$20 Saxton Autos voucher from the Spring newsletter competition!

*Before you travel this summer*

It's that time of the year – time to pack the boot, fill the tank and head off on your summer holiday. Before you take off, have your vehicle checked by Saxtons. During the months of December and January, Saxton Autos offer a pre-holiday safety check for only **\$99 which includes:**

- Check tyre pressures
- Check battery level & apply terminal protection
- Check windscreen washer levels & top up reservoir
- Visual check of wiper blades
- Check & Test brake fluid
- Check clutch fluid
- Lubricate suspension
- Lubricate steering joints
- Check cooling system
- Check auto transmission/gearbox oil
- Check power steering oil
- Lubricate door hinges
- Visual check of drive belts
- Check & clean air filter
- Clean, check and adjust brakes
- Inspect CV boots
- Road test your vehicle

This year we are closed over the Christmas/New Year period which means our last day of business will be Friday 23rd December and we will re-open on Wednesday 4th January.

Don't forget our **COMPLIMENTARY Peanut Slab** when you visit us!

*Merry Christmas and Happy New Year!*

**Saxton's wish you a very safe and happy holidays!**

# WE STOCK BOSCH BATTERIES...

**BOSCH batteries are 100% Maintenance free,** have fast and reliable starting power, meet the demands of modern vehicles and are a brand you can trust SO why not take advantage of Saxtons FREE battery check service which determines the health of your battery. And if it does need replacing then we stock a range of BOSCH batteries, priced from just **\$98** (and complete with a 3 year warranty) which we fit for free as well as disposing of your old battery.

## Staff Profile – Ahron Eastall (Technician)

**In my role I mostly enjoy...** the variety of work that I get. The work isn't too repetitive, so can get challenging at times, however I'm always up to a challenge, and will endeavour to see it through promptly.

**Outside of work I...** am always looking for thing to keep me occupied. My wife and I have 3 children, so this is very time consuming, as well as our recent wedding planning (which is thankfully over). On top of this, I'm a member of the Wainuiomata Volunteer Fire Brigade. My role as a Senior Firefighter and Driver doesn't just stop there. I am a brigade rep, social and canteen committee member, in the Waterway Competition team (in which we compete up and down the country), and Vice President on the Hutt Valley/Wellington sub-association. So again, very busy.

**What I like about working for Saxton Auto's...** is I get to listen to The Rock all day :). And.. We have a beaming team environment. We are a small but close team, and with all of our experiences combined, we have the ideas to complete any task. At Saxton's we have high levels of Quality and Expectations, but we all work together to achieve these, and the days run alot smoother.
